Register now!

Deadline for registration: 8th September 2025

Your host city Inverness

Welcome to the capital to the Scottish Highlands,
where the great glens meet the North Sea!

Enjoy a warm Scottish welcome and embrace the
Highland culture in this city full of history.

The beautiful coastline and its sandy beaches provides
a wealth of wildlife-watching opportunities.

Be on the lookout for Dolphins, seals and... monsters!

Getting there

The closest international airport is Inverness airport,
a shuttle service will run from the airport to the
conference venue.

A registration form will be sent closer to the day if you
want to use this service.

Glen Mhor Hotel, Waterside suite

Take a break on our Study tours

Join a 90 min enchanting wildlife cruise, an effortless voyage along the picturesque Moray Firth. Get those binoculars at the ready as you head towards popular dolphin watching spots. Hear tales of the local history and folklore whilst taking in the stunning views across the water from our onboard experts whilst they help you spot wildlife.

Visit **Ardersier Energy Transition Facility site**, which will provide Scotland's largest facility on the North Sea coast for deploying and servicing offshore wind installations. The 450-acre site is accessed via an initial >650 metres of quay, with a further 1 kilometre of quay development forming the centrepiece of the site's future expansion. The facility will be key to deploying offshore wind projects over the next decade and an important enabler to Scotland achieving net zero by 2045.
